

Resolution on Inflight Unruly Behavior

Recalling AACO 47th AGM resolution 6/2014 that called upon governments to prioritize the ratification of Montreal Protocol 2014;

Supporting ICAO efforts in urging states to ratify/ join Montreal Protocol 2014;

Recognizing that unruly passenger incidents are increasingly becoming a problematic issue affecting the safety and security of flights while causing inconveniences to other passengers;

AACO 49th AGM:

1. **Reaffirms** the urgency of the ratification of Montreal Protocol 2014 by governments to have an international legal instrument come into force that would strengthen dealing with unruly passengers in a more effective way, and would help in preventing future incidents.
2. **Asks** AACO to continue its work in this area by contacting governments and in particular Arab governments to encourage them to ratify Montreal Protocol 2014.
3. **Asks** AACO as well to continue working with ICAO, IATA and ACAC to promote the ratification of the Protocol.
