Lounge eGates on Blockchain

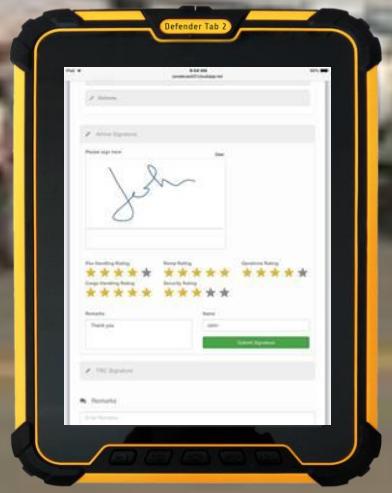
The state-of-the-art self-service solution allows guests to access the lounge directly without checking in at the reception. The passenger simply scans their printed or mobile boarding pass at the gate and enters the lounge.

eGate Benefits

- Saving check-in time and manpower
- Enhancing customer check-in experience
- Preventing revenue leakage
- Ensuring lounge access security
- Updating NAS Dashboard and billing system

Confidential

Turnaround Coordinator Tablet on Blockchain



- TRCs update OCC instantly using tablets on 4G connections.
- Preconfigured “To Do” lists based on SGHA and SLA.
- Eliminate duplicate efforts, human errors, and delays.
- Facilitate accurate billing and avoid revenue leakage.
- Ensure all safety and quality checks are performed.
- Capture timestamp of activities, allowing better SLA monitoring and control.
- Real-time progress monitoring, allowing proactive actions.
- Eliminate manual charge notes.
- Collect Airline Rep Feedback.
