

SAUDI AIRLINES  
CATERING

الخطوط السعودية  
للتامين

Established in 1981 to provide catering services to the Kingdom's flag carrier Saudia. Saudi Airlines Catering Company (SACC) has blossomed into a broad and diversified enterprise offering a full suite of Catering, Retail, Hospitality, Laundry and Hybrid Services to local and international clients."

Our core business is based on scale, quality, and consistency – working to world-class standards of health and safety in food production. Our internationally-trained chefs lead the way in innovation, both in the air and on the ground. They design menus with the quality, detail and authenticity that meet the standards of the most selective plates, while being sensitive to local trends, ingredients and flavors. We ensure quality matches the traditional customs of each route and occasion, in order to satisfy the guests experience.

Our retail operations started back in 1984 when Saudia handed us its prestigious in-flight retail service "SkySales". Our retail services have grown ever since to cover food and non-food retail operations both in-flight and on-ground through serving Airline Carriers and managing our own retail brands and operations.

Our Hospitality Services are vertically integrated in providing unique hospitality services and BOM (built/operate/manage) operations. They cover Airline & Non-airline Lounges, Motels, Events Management and Fine & Luxury Dining Buffets.
